

Dear Parents/Guardians,

I hope you and your families are all well!

I am going to give a weekly overview of activities for the children to work through each day.

Please email me with any questions or similarly anything you'd like to share for our class Twitter page. It is fantastic to see so many of you making the most of the home learning and working with your children, so thank you for all your hard work! I know it isn't an easy time for everyone but we can only do our best and you are all doing an amazing job!

Mrs Lawson.

Summer Term: Week 1

Oxford Reading Buddy: Children are to continue with their daily reading as normal.

Science: Plants: Objectives are to identify and name a variety of common wild and garden plants, including deciduous and evergreen trees.

- Identify and describe the basic structure of a variety of common flowering plants, including trees.

Go on a walk or look in your garden and make close observations of leaves, seeds, flowers etc. Write or draw anything you notice about the above. Compare with the other members of your family. You might want to do this over a couple of days to see if there are any changes. You could also take photographs to recognise any changes.
