

Dear Parents,

Hope you and your families are well.

I am going to give a weekly overview of activities for children to work through.

Please email me with any questions or similarly anything you'd like to share for our class Twitter page. If emailing pictures then please leave permission for me to share. It is fantastic to see so many of you making the most of the home learning and working with your children, so thank you for all your hard work! I know it isn't an easy time for everyone but we can only do our best and you are all doing an amazing job!

I will continue to release the lessons daily on Google Classroom with explanations for each task. Please remember to 'Turn in' when children complete each task. This gives us an idea of where children are up to and how many have completed each task. I don't know circumstances at home so just complete what you can and if there are any problems that I could help with then please let me know.

**Maths-** I know some children were struggling with the problems before Easter and a lot of you found White Rose of great use. I have therefore included both on the plans and an easier task from the BBC for children to access. The White Rose work is great, as we are yet to complete the units that are being delivered. The Problems of the Day are great for challenging children and good for applying previously learned maths skills. BBC tasks are good for reinforcing previously learned skills and could be a bit more manageable for children that are struggling. I would prefer children to complete White Rose tasks and use the other activities as extensions if necessary. **Children do not have to complete all three tasks. Tasks are there as a choice depending on ability and circumstance.**

**English-** We will be using Talk for Writing Home-school booklet. I will share this booklet on Google Classroom. If you don't have access to a printer, then use the booklet as a guide and do any work in the English book I sent home. I have broken the booklet down into mini tasks. The lessons should take approximately 30 minutes a day. I will release the lessons each day on Google Classroom each day with a bit more detail. I have also included a link for phonics which might be of use to reinforce sounds. **Children do not have to complete phonics. This is a choice depending on ability and circumstance.**

**Foundation subjects-** BBC Bitesize have released lessons on their website. Each lesson has a few activities that children can complete. These are all included on the plans.

**PE-** Keep as active as possible. I have included lots of links on the school website that may be of interest. I know some of you have been very creative with physical activity which is great to see.

# Summer Term Week 4
